Palliative Long-term Abdominal Drains Versus Repeated Drainage in Untreatable Ascites Due to Advanced Cirrhosis: A Randomised Controlled Trial

It is an honour to be the Chief Investigator for this Study as it gives me the opportunity to work with a great and motivated team. We hope that this study will increase the profile of a really vulnerable and disenfranchised cohort by addressing inequality in palliative care provision. Support from sites has been overwhelming so thank you !!

Prof Sumita Verma

ACTUAL VS PROJECTED RECRUITMENT

REDUCe2

Palliative Long-term Abdominal Drains Versus Repeated Drainage in Untreatable Ascites Due to Advanced Cirrhosis: A Randomised Controlled Trial

MEET THE TEAM

Prof Sumita Verma
Chief Investigator,
UHSussex

Dr Yaz Haddadin
Clinical Research Fellow,
UHSussex

Alison Porges
Clinical Trial Manager,
BSCTU

Debbie Lambert
Clinical Database Manager,
BSCTU

Chloe Bruce
Data Manager, BSCTU

Prof Stephen Bremner
Statistician,
BSCTU

REDUCe2

Palliative Long-term Abdominal Drains Versus Repeated Drainage in Untreatable Ascites Due to Advanced Cirrhosis: A Randomised Controlled Trial

MEET THE TEAM

Dr Helena Harder
Senior Research Fellow,
SHORE-C

Rachel Starkings
Research Fellow,
SHORE-C

Shirley May
Senior Data Manager,
SHORE-C

Ruth Habibi
Data Manager,
SHORE-C

Debbie Coton
Research Manager, JCRO Uni
of Sussex

Lorraine Klus
Finance Manager,
UHSussex

Sam Suter
Administrator, JCRO
Uni of Sussex

REDUCe2

Palliative Long-term Abdominal Drains Versus Repeated Drainage in Untreatable Ascites Due to Advanced Cirrhosis: A Randomised Controlled Trial

Sites opened:

- University Hospitals Sussex NHS Foundation Trust – Royal Sussex County Hospital
- University Hospitals Sussex NHS Foundation Trust – Worthing Hospital
- Bolton NHS Foundation Trust – Bolton Royal Infirmary

SIVs have been done at:

- St George's University Hospitals NHS Foundation Trust – St George's Hospital
- NHS Lanarkshire – University Hospital Hairmyres
- NHS Greater Glasgow and Clyde Health Board – Queen Elizabeth Hospital
- Hull University Teaching Hospitals NHS Trust – Hull Royal Infirmary
- University Hospital Southampton NHS Foundation Trust - Southampton General Hospital
- Royal Devon University Healthcare NHS Foundation Trust - Royal Devon and Exeter Hospital

SIVs are planned at:

- Northumbria Healthcare NHS Foundation Trust - North Tyneside General Hospital

Palliative Long-term Abdominal Drains Versus Repeated Drainage in Untreatable Ascites Due to Advanced Cirrhosis: A Randomised Controlled Trial

INVESTIGATOR MEETING

We held the REDUCe2 Investigator Meeting at the End of Life BASL SIG meeting in Bristol on 17th November. The hybrid event was very well attended by the potential Principal Investigators and Research Nurses for the study. We hope those of you who attended found it useful.

REDUCe2

Palliative Long-term Abdominal Drains Versus Repeated Drainage in Untreatable Ascites Due to Advanced Cirrhosis: A Randomised Controlled Trial

- **HOUSEKEEPING ***

- Please generate MACRO™ patient ID before randomisation in Sealed Envelope™
- Please forward signed **consent forms** (patients and caregivers), the **Eligibility Checklist & Expression of Interest** forms within a week of randomisation to reduce2@bsms.ac.uk
- Remember to **enter** the SFLDQoL and CRRS / CRRS About You questionnaires to the SHORE-C database then **email** them to SHORE-C shorec-reduce2@sussex.ac.uk
- Any free text written on the paper questionnaires should be entered in the notes box at the end of the online questionnaires

* Remember to use [**secure**] email *

Don't forget to follow us on **TWITTER** using [@REDUCe2Study](https://twitter.com/REDUCe2Study) for the latest study news!
